Saturday Morning, Sept'r 9, 1871. The Dominion Cabinet. Under the hypocritical pretext of giving a questionable support, our local contemporary does the administration people of this country and the Government party depends wholly on the accident of that party being in power, and having made an extraordinary effort to admit us on the most favorable terms. Passing by all past eccentricities of our contemporary, wherein it endeavor ed to make it appear that the terms were anything but favorable, we must relations and position of the present relations and position of the Dominion Cabinet and the Pacific Province is unjust, as it is certainly uncomplimentary people of this country and the Governjust, as it is certainly uncomplimentary to both. In the first place, we cannot regard it as an "accident" that the regard it as an "accident" that the present Cabinet was in power at the time the union resolutions were before the Parliament. We prefer to attribute to an overruling Providence and to the good sense of the people of the Dominion the circumstance of the Cabinet being composed, at such an important and critical juncture, of men pre-eminently qualified for the great work of founding a mighty empire. Without the least wish to underrate the unquestioned talent to be found on the Opposition benches, there need be no hesitation benches, there need be no besitation whatever in asserting that there is not to be found on these benches material out of which to construct a Cabinet at all comparable with the present one, in point of real statesmanship. There undoubtedly are able men in the Opposition. Indeed it would be strange if there were not. But they are so few that they may be counted upon the figgers of one hand. Take away Mac. Renzie, Biske, Dorion and Holton, and there will only be left a helrogeneous there will only be left a hetrogeneous mass of medicere humanity. On the other hand, look at the array of talent to be found on the Treasury benches: to be found on the Treasury benches:
Sir John A Macdonald, Sir George E
Cartier, Sir Francis Hincks, the Hons
Langevin, Tupper, Tilley, Howe, Mitabell, Campbell, Morris, everyone of
them possessing broad and progressive
views, united with great administrative
ability. Have we not seen Sir John
called noon by the Queen to take his called upon by the Queen to take his place amongst the most able statesmen of the parent empire in one of the most crition! and important international adjudications recorded in history? And have we not seen his rare abilities acknowledged and heard his praises sung on both sides of the Atlantic—even by a loreign press not accustomed to recogoize anything good in Canada? And as for Sir-Gaorge, have we not seen the English press admonishing the Queen's Ministers to take lessons at his feet? Sir Francis was the first colcinist who received a Governorship at the hands of the Queen, and we have already sees the magic influence of his administrative ability upon the Dominion finances. The other members of the Cabinet, although for the most part, younger in statecraft, are searcely less successful, and are rapidly building up a reputation. In short, the present Cabinet appears to be composed of 'the right men in the right place,'—men who have approved themselves equal to the great work of empire and who have been singularly successful in rendering the Dominion prosperous at heme and respected abroad. We decline to think that the present time is bare 'accident'; we dony that the people of this Province known thing of them beyond the mere fact that they are in power, and we indignantly deny that the alliance between this people and the Canadian Cabinet' depends wholly upon the mere 'accident' of their being 'in power' and securing the ad mission of British Columbia upon 'the most favorable' terms.' Upon the principle that 'one good turn deserves noother,' there end be no doubt that this Province wes that Cabinet a strong support, for it had a hard struggle to secure to us, not extravagnantly good, but fair and equitable terms. But that does not constitute the sole ground upon which we hope to see the Dominion Cabinet receiving a liberal support from the Pacific Pravince. There is another and higher ground upon which we ought to support that Cabinet—and it is the ground presented by the facts already adverted to,—the great fact that it is composed of the best available men for the important work in hand, the fact that fise there wer should, therefore, be sustained by the country at large until it shall have had a lair opportunity of complating the grand work which called it into existence.

### national Society.

Communism did not find a grave in Paris, It still lives under the protontious name of the International Society, with its headquarters in London and its ramifications in every country in Europe, Fenianism in the United States may in all probability be regarded as an affiliated branch. True to the princimay in all probability be regarded as an affiliated branch. True to the principles that actuated the Communists in

perpetrating orimes which made human ity shudder and deluged the streets of Parls with the blood of her pricets and pious women, this International Society goolly proposes to produce the assassin-ation of half the crowned heads of Europe. The floadish expedient has also been suggested of burning all the workshops, factories and other labor-employing esat Ottawan very great injustice. It is tablishments, as a means of compelling esserted that the alliance between the those thus deprived of work and food to tablishments, as a means of competing those thus deprived of work and food to join them in the social war. It is indeed fearful to contemplate the existence in England of an organization with such a programme of operations. What is to be done? We are told that in France a bill is to be passed making it a crime to belong to the international Society in that country. Has not the time come when our own nation should prescribe limits and checks to what is popularly termed "liberty," but which may, perhaps, more properly be called "liberty ranning riot"? If London is national sedition and assassination, it may yet be necessary both for homesafety and foreign justice that a bit and bridle be placed upon this so-called liber-ty in England herself. Doubless our local contemporary will be shocked at a proposition to interfere with the opertions of an organization whose deeds of blood in Paris it predicted not long ago would live to be appreciated and praised by posterity; but we seriously question whether even Great Britain can afford to permit such an organization to flourish in her midst, and the time may not be distant when she may be called upon by the other European Powers to stamp out the viper.

Government Buildings,
8th September, 1871. DIAMOND NEWS .- The Cape papers sparkle with news of rich ' finds ' at the diggings :-A Dutchman was fortunate enough to unearth a diamond of 90 carate at Da Toit's Pan on the 27th June. The lucky finder left the camp the 27th June. The lucky inder left the camp the same day. We extract the following from the Dlamond Field of the 22d June:—Whilst Mr Williams of Hebron was fishing the other day he hooked a fish of about 1½ lbs weight, which, on being opened, was found to contain a beautiful gem of 1½ carats, which he says he seld for £20. We may be sure that Mr Williams considered it the richest fish he had ever eaton, and also that the number of hadever eaten, and also that the number of Isaac Walton's disciples will increase considerably on the banks of the Vaal. The 93 carat gem disinterred by a Boer at Dutoitspan a few days since, is said to have had a piece of about 30 carats broken off it by the pick, which piece has since been discovered. The 93 carat was sold by the Boer for £10.000 and was immediately afterwards valued at £30.-400

THE London Standard hears, on the best authority, that Russia is making extensive purchases of militia stores and munitions of war and asks whether the Black Sea question is about to be reopened. Tuose Cows .- An old grey cow and a com mion of sorrel hue for the last week have nightly visited the gardens on Rae street and feasted on the plants and shrubs very much to the annoyance and damage of the residents on that street. A lady, who has broken all her broom-sticks on the trespassers, says if the cows come to-night he will use her husband's revolver which she known is well charged. Either the owners of the cows or the Pound-keeper had better interfere and preserve those cows from being converted into untimely beef.

"BIRDS OF A FHATHER," &c .- We are in no way surprised to observe that the Toronto Globe is eagerly copying from the Victoria Standard the illinatured snarls indulged in by the latter against the Dominion Government in respect of the Railway Survey on this coast. The Standard all along copied the anti-Government tit-bits of the Globe, why should not the Grit Thunderer reciprocate? We presume both have a right to choose their company.

NAMAIMO DISTRICT .- Bunster is cock sure of his election to the Commons in this District. He was abused in so hersh and oriol's manor by his late rider that many had cred; a manor by his late rider that many had serious thoughts of patitioning for a local application of the English law for the Prevention of Cruelty to Animals. However, the force with which he finally rid himself of the disagreeable burdon appears to have more than compensated Bunster for the unsparing use of the burr-bit, spur and whip by DeCosmos, who will never reach Ottawa if he waits for who will never reach Ottawa if he waits for Bunster to pack him there.

BUCHU INSANITY .- Helmbold will probably be sent to an insane asylum in a few days his business troubles having turned his brain. It is thought his derangement will be temporary, though some of his friends fear he cannot recover, as his mind has been giving way for several years. His financial embar-rassments arise altogether, it is said, from his lavish style of living, and do not arise from histogram management. business management

THE TICHBORNE CASE .- The London G!obe inderstands that some important intelligence has been received from Australia with respect to the Tichborne case. #### Victoria District.

Epiron Bairish Colonist. — Never in the political history of Victoria District, has such a meagre, vaciliating and inactive spirit been manifested on the part of those seeking the representation thereof, as is apparent on the present occasion.

Here we are, within a few, weeks of the elections, and so far, none of the political "worthies," have given out any certain

"worthies," have given out any certain "sound."

True, a somewhat informal meeting has been held in an extreme corner of the District, but on that occasion the greater portion of those present seemed to dwell more on what those present seemed to dwell more on what was passing in to them to the entire seclusion of what was passing out to them, and the meeting terminated without any definite expression having been made by the candidates worth the consideration of the electors.

Subsequently another meeting was called in the same locality, and that proved an abortion also. The Political "Ciero" on that occarion meeting was the proved an abortion also.

also. The Political "Clouro" on that occasion merely "rode up the hill and then rode
down again."
I would suggest that if the candidates now
in the field seriously mean business, let them
come out in a manly and straightforward
manner, meet the electors collectively in the
different sections of the constituency, and
thereby afford some time for the electors updage of the parties best entitled to their supjudge of the parties best entitled to their support on the day of election. A VOTER.

Referring to the approaching visit of the Marquis of Lorne the Scottish Advertiser eaps,—'We have no doubt the young people will find themselves very happy among the Canadian people. There is but small chance of their heing treated as they were treated in of their being treated as they were treated in Dublin. Unless we greatly mistake, it may be toucd that there is as much loyalty throughout the Dominion as there is throughthroughout the Dominion as there is through-out the British Isles—as much in Ottawa as in London. In the Dominion where Scots men abound and where Campbells are num-erons, the Marquis is sure to be popular; und most assuredly his young wife, for her own sake, and for the sake of her mother, will not be neglected. It was binted some time ago that Prince Arthur might be ap-pointed Governor General of Canada. Is it not just as likely that the Marquis of Lorne may be appointed to that high office? We wish the young people a pleasant time.

#### British Columbia and the Opposition. WHOLESALE AND RETAIL GROCER, Ottawa Times, Aug. 18,

Not for the sake of party, but for the sake of this country's welfare in the future, we rejoice to notice that the character of the Grit leaders in Outario is beginning to be thoroughly understood by the press of Bri-tish Columbia. The Bairish Colonist of. Victoria is doing a really patriotic work in exposing these demagogues in their true light. The B itish Columbians cann t too speedily be taught to understand that the only tie which united the members of the Opposition together is a desire for clice, and that in order to attain that object hey are prepared to sacrafice the interests of the Dominion and endanger its future. The Colo-MIST SAVS-

British Columbians will not casily forget the attitude of the Ontario Opposition during the last session of Parliament upon the pro-position to extend the Dominion to the Pa-cifle. On that occasion Mr Brown and his party were found willing to sacrifice every principle of their political lives, even to enlanger the new empire, in order to gain danger the new empire, in order to gain office. On that occasion they were found opposing most the very scheme they had been advocating most, apparently in the vain hope of overthrowing a Ministry whose greatest sin consisted in honestly, carrestly and successfully carrying out that Confederation which Mr Brown himself had five years before wors to carry out. Then, again took of the defeated were to carry out. Then, again, look at the position of the same party in relation to the frasty of Washington. Look at the one of the Globe and its satellites—how the Ministers are pureoud day after day and week after week with the most puerie non-sense, how their every notice misrepresented, their every in tire misrepresented. their every in tive misjudged, their every word misqueted. It is but too evident that the Opposition would be prepared to sub-ordinate anything, even the safety of the Empire, to a desire for office.

Empire, to a desire for office.'

Here, then, is the deliberate opinion of a jours nai, which although far removed from Ottaws, has had smple opportunities for watching the progress of political affairs and the line of action pursued by political parties in Cansada, It was not until last April, after the abominably unpatriotic action of the Opposition with regard to the British Columbia question, that the Coloniar began to understand the true position of affairs. Wilted Down.

Ask the man who complains of "wilting down" in torrid wheather what he has done to sustain system under the extra strain imposed on his vi. ety of catharties to purify his blood and brighten his spirits. Under such treatment, of course his strength has given way, and his energies have become exhausted. What he requires is a restorative not a deplectant. His blood is thin; his nerves have lost their natural tension, and ly a score of years, Hostetter's Stomach Bitters has been building up broken constitutions, bracing and strengthening attenuated frames, and affording comfort, ease, and hope to thousands. As a preventive of the epedemics which make excursion to Burrard Ielet was got carried such havoc with the health of the inhabitants of new settiements, this famous tonic is certainly

new settiements, this famous tonic is certainly without a rival. Perhaps the principal portion of its world wide fame is attributable to its astainshing cures of dyspepsia, and all forms of indigession, but these are not a molety of its friumphs. All the types of billousness yield to its persistent use. It is a regulating medicine of the highest order; and its effect upon the secretion, when irregular, is most salutary.

Imposition of the grossest character is sought to be paacticed upon the community by vendors, who recommend under the name of "bitters" fiers compounds of a dangerous character, which they attempt to substitute for the great "national tonic. Shun all such nostrums, and see that you have the genuine Hosteter's Stomach Bitters properly authenticated by label, name and stamp, properly authenticated by label, name and stam and sold in bottles only.
